HOW TO SELECT YOUR COLOR AND UPHOLSTERY . . . On the various Car Selector pages in this book you'll find lists showing all colors available for each model. Samples of these colors together with a code letter for each are shown on the inside flap on the last page of the book. When you have decided on a model and color, just locate the color code letter in the appropriate column on this or the preceding pages. You'll be able to determine easily which upholstery is available with the color you wish.

¹Also optional at extra cost in 500 Sedans and Hardtops
²Convertible only
³Pleated all-vinyl also available at extra cost
